

We had a family with two boys who love soccer. This family was living near Swangard and so they would sometimes go and watch the Whitecaps play through the fence. When we received some tickets for one of the games I offered them to the family. They were thrilled to be able to go inside the stadium to watch the game. It was so great to offer this family, who had come to Canada to start a new life in a safe country a chance such as this.
