FAMILY CARE SUPPORT PROGRAM

Dear Conor Lundy

I am the winner of the two tickets you donated to Kids Up Front for the U2 and Black Eyed Peas concert on Wednesday night.

Never in my wildest dreams, yet alone my clients, would I have thought that I would have attended such a wonderful event.

The excitement began on Monday when I called my client Dalton at school to let him know that he and I were going to see a concert. Black Eyed Peas are one of his favorite bands and he was ecstatic about seeing them live. When I picked him up for the concert, his Foster Mom said he had not stopped talking about this opportunity. We got to BC Place with time to spare and I will never forget Dalton's look on his face when we walked the corridor to the open view of the gigantic stage before our eyes. He was is awe.

The three and a half hour performance went by rather quickly as there was not a dull moment. Fergie and the gang blew our expectations out the window with the electrifying sound and music that filled the air. Bono captivated the crowd with his enthusiasm and energy. It wasn't a concert, it was a performance for the ages. It was an experience my client and I will never forget.

I am deeply honored by your generosity and kind heart. Your gift to us created a positive memory for Dalton who does not have many in his life.

Warmest regards

James Stumph
